

The figure is a network graph visualization showing connections between nodes over time. The x-axis is labeled "Tado" and ranges from 1997 to 2007. The y-axis represents different nodes, indicated by a vertical stack of colored circles on the left. The nodes are colored circles, and the edges are thin lines. A prominent purple line connects a node in 2000 to a cluster of nodes in 2001. The graph shows a dense network of connections, particularly between 2000 and 2001, and between 2004 and 2007.
